

60 seconds BNI

Good morning, my name is Anuschka from Moustique Design.

We build and design web sites. We can help people who have the following problems:

They expect a lot from their web site.

They need a professional AND imaginative image.

1. What you get:

Face-to-face meetings, phone or email support, transparency, three designs to choose from, unlimited amendments.

2. What we do for you:

Design of web sites, banners, illustrations.

Building of brochure sites or e-commerce shops.

3. What I would like:

My bread and butter clients are companies in a creative industry like interior design, architecture, garden design, jewellery design etc.

My cream referrals are hotels and restaurants: we are currently working on the constant maintenance of three web sites for lovely restaurants in Mayfair and would like to work with boutique hotels on their visual online presentation as well as on technical updates they might require.

My dream referral: to work with Innocent on a project for them!

That is Anuschka Fritz from Moustique Design – we put the fun into functional
