

## BNI Clerkenwell 60-secs John Wright

What can Opus Business Systems do for you ?

We're a telecoms company that -

- Take the stress out of moving or setting-up a business by handling everything from system supply to lines, to cheap calls, to Cat5 cabling and the systems themselves.

- We can provide expert advice on how to get the best Phone Systems to make your organisation productive by designing the right system for your organisation, frequently integrating with the applications on your PC Network, from Outlook to bespoke databases.

- We save you money. By providing access to cheap calls, line rentals and maintenance of phone systems

- In the longer term we help you keep your system up to date and make sure they get the most from it.

- We specialise in the provision of systems for:

Medical Centres and surgeries. – Legal Practices and Schools

I would particularly like to meet Practice Managers within Legal or Medical Practice , Bursars or IT Managers for any Public Independent Schools as well as any companies that may be moving.

John Wright – Opus Business Systems – keeping your business talking.
